Approved PhD Courses a.a. 2025/2026

Course	Hours	CFU
Notes for statistical data analyses	20	3
Science Communication	13	2
Grant Writing	10	2
Basic course of programming in Python	10	2
A journey with the cytotoxic lymphocytes	10	2
Neuromuscular Plasticity	10	2
Nanomedicine: from dream to applications?	10	2
Learning, memory and actions: from neural circuits to complex behaviours	10	2
Neurodegeneration	13	2
Protein Structure Analysis: Databases, Visualization, and Functional Insights	10	2
Intrinsically Disordered Proteins: structural and functional characterization and their key role in human diseases	10	2
The world of RNA: from cell biology to personalized medicine	10	2
Genomic Bioinformatics	10	2
